Dear Ms. Montague,

Subject: Willowood Propanil Technical – EPA Reg. No. 87829-1: Submission of New Data

On behalf of Willowood Propanil LLC, I am submitting the enclosed report of a new study "Willowood Propanil Technical: Local Lymph Node Assay (LLNA) in Mice". This study was conducted at the request of California Department of Pesticide Regulation and has not been previously submitted to EPA.

The reason for submitting this study is that the results indicate that the product is positive for dermal sensitization while the data cited to support the initial product registration indicated a negative response for dermal sensitization. Please let me know if I need to amend the label precautionary statements for this product.

Sincerely,

James M. Wagner
Agent for Willowood Propanil, LLC

Enclosure – PSL Report 39735, 3 copies
